## Fiery MONOCHROMES

Fancying a fiery interior that is both youthful and monochromatic, this residence projects a grounded yet classy feel with good quality materials and furnishings incorporated into the overall design scheme.

### Phoenix Nest

The living room exudes life with the extensive use of orange in this area. The wide bright orange tiles as well as single toned orange sofa also successfully open up the living space.

AS SOON AS YOU WALK into the residence you will see a spacious living room, a music area as well as a wide kitchen that incorporates clean lines and are predominantly dark. The designers balance off the shadowy appearance of the kitchen by installing white kitchen counter tops as well as the usage of sufficient lighting resulting in a café ambience.

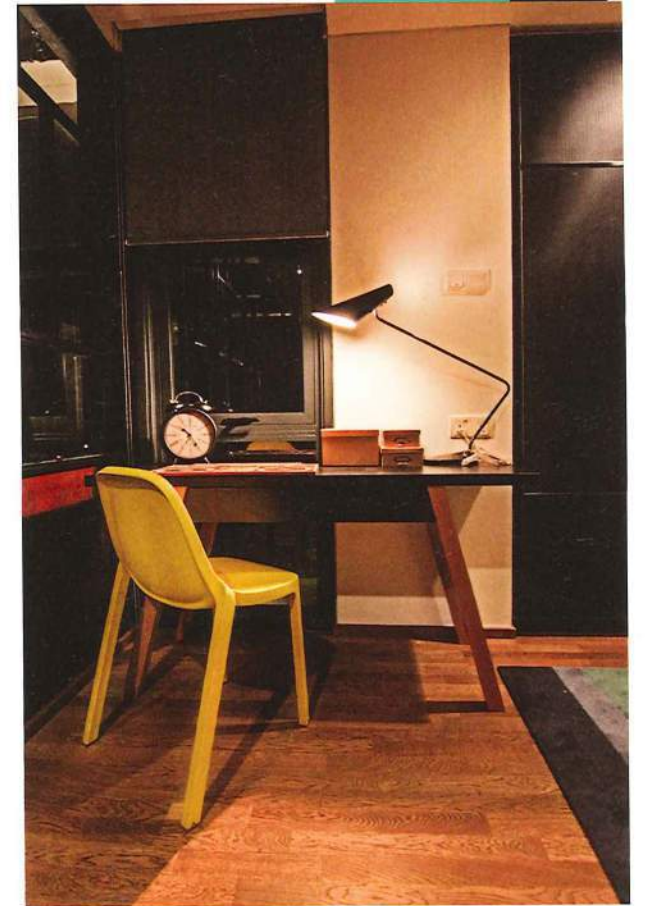

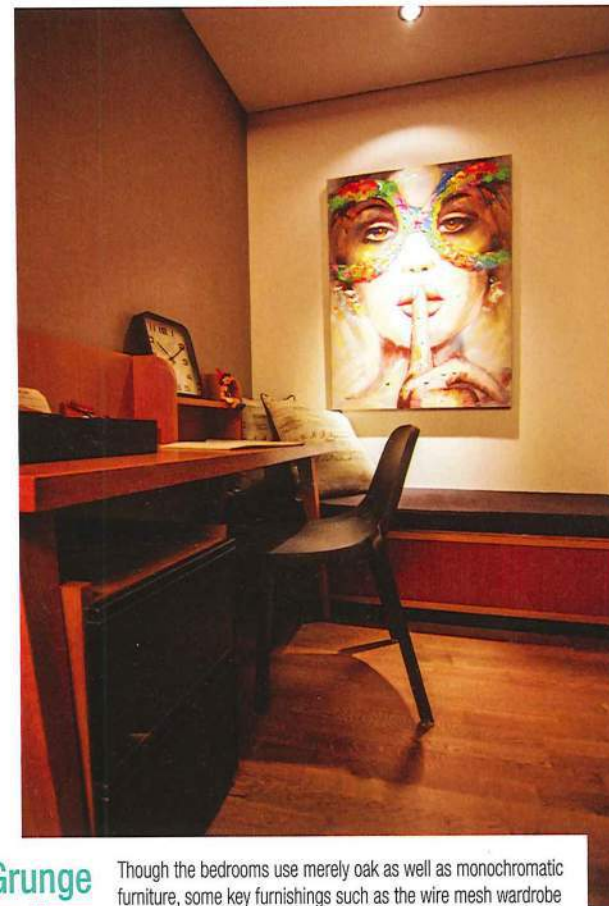

Walking further into the home, you will be greeted with a zesty living area as shades of orange sets the mood here. Large orange tiles have been installed horizontally over a wall to give a textured appearance while a comfy orange sofa adds to the fire in this uniquely dressed living room.

On the right, you will notice a personalised area which any homeowner can accordingly customize to their liking as well as individual taste. The designers have however, turned this area into a music area with additional storage.

Both rooms of this duplex condo resonates a grunge as well as masculine appearance. The large master suite projects an unfinished feel with furniture using mainly oak, black and white shades accented with light brown textured wallpaper. The warm lighting used truly sets the mood for the room while the eye-catching design of the wardrobe puts the entire ensemble to perfection. **id**

### Grunge Minimalism

Though the bedrooms use merely oak as well as monochromatic furniture, some key furnishings such as the wire mesh wardrobe and large painting in the smaller room give both these rooms a sophisticated appearance.

### BERCAHAYA MESRA

Kehidupan kompak zaman ini menampakkan lebih solusi bijak dalam mengatasi ruang yang lebih terhad dan sempit. Pereka bentuk dalaman dari X Dimension ini menunjukkan cara menyuntik gaya ke dalam ruang kecil ini.

Ruang tamu menggayakan sebuah sofa jingga yang diterjemahkan dalam tema keringkas. Berteraskan konsep yang cukup artistik dan kontemporari, kelihatan ruang umum memperagakan juga solusi-solusi penstoran bijak dan kreatif untuk memastikan setiap inci ruang digunakan dengan efisien dalam olahan yang tidak membosankan. Dapur pula kekal ringkas dengan olahan berkayu dan permukaan kaunter berona putih untuk sedikit keseimbangan. Cahaya mesra digunakan untuk memberi nafas mesra dan mengundang di dalam ruang yang sebat dengan perkataan selesai.

Beralih ke bilik tidur, kelihatan gaya zaman 80-an yang cukup terserlah. Penggunaan aksesori dan hiasan deko yang membawa nostalgia memori indah kembali ke dunia nyata. Rata-rata perabot diberi sentuhan kayu yang harmoni bersama kemasan lantai. Kertas dinding hiasan bertekstur dalam rona kuning oat menghiasi dinding yang selebihnya. Jalur-jalur logam bersalut rona hitam memberi tekstur serta paparan indah dari bilik tidur ini. Katil yang memetik rona-rona di dalam ruang bilik tidur mengikatkan lagi keserasian bilik tidur secara keseluruhan. **id**

### Shady Excellence

The balance between dark and light spaces is created using bright hues of orange and white as well as sufficient warm lighting.
