

THE MANSIONS

—

The entrance statement dramatically celebrates the site geology & geography, whilst elegantly addressing engineering needs for slope protection works.

MANSIONS

The Mansions

Kuala Lumpur, Malaysia

2010 - 2014

This development comprises 137 2½ to 3½-storey strata homes within a gated and landscaped compound with a clubhouse, pool and other common amenities. The master layout plan was conceived to foster the ideals of community living and place making. The central spine of the development is punctuated by a pool which becomes the focal point for the entire community. The residences are vibrant, light filled and airy spaces with distinct public and private zones.
